17	271430	CGCINARC	MULTIPLE ADDDEES	Annex "M" (Surface Munt Sched) To STRAC Plan 316-62 is being changed. Pending issue of a new Annex "M" changes affecting principal units is furnished. (DAIN 231739)	Journal
18	271350	CGCINARC	DA	DAIN 287801 In the event of implementation of either CINCLANT OPLAN 312 or 316-62, there exists the possibility of enemy reaction against Puerto Rico and islands of the lesser Antilles. ASDP FY 61, Annex H, directs that CGUSCARIB be prepared to transfer or assigned responsibilities for ANTOCOM to CG US Army LANTCOM, when activated or to CG USGCCARC if directed. With your concurrence it is planned to forward the following recommendations to CINCLANT: ANTOCOM USARCARIB be transferred from CG USARCARIB to CINCLANT upon implementation of CINCLANT OPLAN 312. The President authorizes the mobilization of HQ and Reserve units in Puerto Rico and the Virgin Islands upon implementation of CINCLANT OPLAN 312.	Journal Sig Events Action passed to OPS (Col G)
19	271630	271630	AWR	ACSI memorandum "Characteristics of US and Soviet Tanks", w/incl, forwarded to General Parker.	Journal

			Significant events

27	272100	Gen Hutchins	AWR	Get ordinance opinion on project ACSI is now working on (effectiveness of Naplan on T-54 tanks) (Note: This requirement due from ACSI at 2000) L/C Connally DCSLOG will report to WR. L/C Connally reported to WR at 2110 and departed with requirement	Journal
28	272150	Maj Forrest	AWR	Sec Def has issued orders that 24 troop carrier squadrons w/supporting units, to include 6 aerial port squadrons, will be called to active duty. TOTAL 14,214 Pers	Significant events board Journal
29	272045	CINCLANT	JCS	Completion of movement tables for the 7-day response has determined that these additional battle groups cannot be airlanded on D-Day. These battle groups will begin arriving on D+2 and close C+3. Movement tables will designate Ft Lauderdale as outloading port for 3d & 4th increments of TF Charlie & will speed up the introduction of TF Charlie into the objective area by from 1 to 3 days: will also schedule arrival of the 3d increments of 2/69th Tk Bn from Savannah to the objective area on D-Day rather than D+3. Desire to reaffirm preference for 7-day version of OPLAN 316 since the 5-day version. Because of the displacement of staging bases from McDowell & McDill to Eglin & Tyndall since the decision to complete OPLAN 316 (7-day) a recomputation would be necessary for the 5 day version. 7-day planning is now complete. DA IN 281944	Journal
30	272220	CINCNORAD	JCS	It is requested that "B" Btry. 2d Bn, 52d Arty be made available immediately upon return to CONUS for deployment with the remainder of the battalion in the Miami/Homestead area. ARADCOM advises that one Arty group Headquarters is required in the Miami-Homestead area, and intends to request through <del>xxxxxx</del> service channels, the 13th Arty Group for that purpose. This headquarters concurs & requests <del>xx</del> JCS support in making a group headquarters available. DA IN 281687	Journal
31	272215	CGUSCONARC	JCS	CINCLANT has assigned the code word <del>xxxxxx</del> to this headquarters for communication & administration purposes. DA IN 281852	Journal

				INTELLIGENCE INTELLIGENCE AND ANALYSIS
32	271830	CONARC	Chief & Staff DA	<p>Message contains Gen Powell's comments on a message from Gen Wheeler. Points covered include:</p> <p>The unloading facilities at the objective area can affect operations either favorably or unfavorably.</p> <p>22 M-41 tanks are now programed to be in the Mariel area on D-Day. The lethal effectiveness of the latest 76mm ammo and the greater speed range of the M-41 present great advantage when compared with the M-48. However, I am still in doubt as to whether these factors outweigh the lighter armor of the M-41. I am looking into the availability of M-48 tanks. I will advise you of my decision.</p> <p>I have approved small changes to program the armor into Mariel on D-Day and to permit TF Charlie to close in objective area by D+3 in stead of D+6 as previously scheduled. Provision has also been made to bring in early on the Tau. us much needed signal and medical units which will somewhat make up for any delay in the air landed echelon.</p> <p>As the 3rd and 4th increments of TF Charlie are now programed to sail from Lauderdale, I am ordering these elements also to Ft. Stewart. DA IN 281821</p>
